

DRAGON BOMB

DRAGON BOMB is a celebration of the Hakka people that takes place in Miaoli, Taiwan, during the Lantern Festival. Residents throw firecrackers at the dragon dance as it parades through the streets.

It is said that the more firecrackers the dragon receives, the more blessings will be granted in the new year.

Components

Setup

Arrange the cards as follows:

Deal 3 Firecracker cards to each player.

Objective of the Game

Choose and place your Firecracker cards under the Dragon Body. Add their Power Values to meet or exceed the Dragon's Vitality Points. Explode the Dragon to earn Victory Points.

Game Flow

The game is played over several rounds, each consisting of multiple turns.

Each player starts with 3 Firecracker cards in hand.

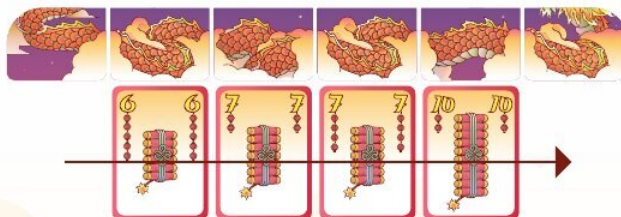

Each turn is played in 4 steps:

1 Choose Firecracker Cards

- Each player chooses 1 Firecracker card from their hand and places it **face down** on the table.
- Once all players have selected a card, **reveal them simultaneously**.

2 Place Firecracker Cards

- The player with the **lowest Power Value** begins. (In case of a tie, the player with fewer Lanterns on their card goes first.)
- That player places their Firecracker card **in the Bombing Zone**, under the first Dragon Body slot on the left.
- Then, in ascending order, each player places their Firecracker card **from left to right**.

- The **Power Values** of the Firecracker cards in each position are **added together** as soon as a player places their card.

- If the **total Power** is **lower than the Vitality Points** of the Dragon Body card, nothing happens. The Firecracker cards remain in place for the next turn.

- If the **total Power** is **equal to or higher than the Vitality Points** of the corresponding Dragon Body card, the player takes that Dragon Body card face up and places it in front of them.

The player then **removes all associated Firecracker cards** and places them in the discard pile.

3 Complete the Dragon

- Once all players have placed their cards, draw cards from the Dragon deck to **fill empty spaces** in the Dragon Body.
 - Rearrange the cards in **ascending order**.
- If the Dragon deck is empty, see **End of Round**.

4 Draw Cards

- Each player draws until they have 3 **Firecracker cards** in hand.
- If the Firecracker deck is empty, shuffle the discard pile to form a **new deck**.

End of Round

- If there are not enough Dragon Body cards to fill the empty spaces, **the round ends immediately**. Record each player's Victory Points.
- Set up a **new round** following the initial setup.

Example

In a **4-player game**, two Firecracker cards (**Power 7 and 9**) are already in the Bombing Zone.

- Christophe plays **3**
- Yoann plays **5**
- Miguel plays **6**
- Oranne plays **8**

Christophe and Yoann **do not reach the required Vitality**.

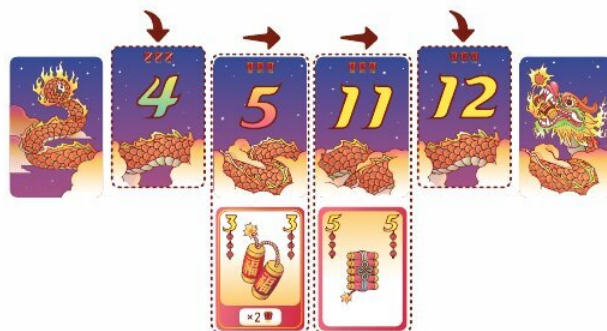

Miguel: $6 + 7 = 13$, which **exceeds 12**.

He takes the card and **scores 3 points**.

He **discards** the Firecracker cards with Power 7 and 6.

Oranne: $8 + 9 = 17$, which **equals 17**.

She takes the card and **scores 5 points**.

At the end of the turn, **2 new Dragon Body cards (4 and 12)** are added from the Dragon deck.

They are placed in ascending order: **4** first, shifting the other cards, and **12** at the far right.

The remaining Firecrackers cards shift accordingly.

A new turn begins.

End of Game

- The game ends when a player reaches **50 points** or more at the end of a round.
- The player with the **highest total** wins the game.
- In case of a tie, the player **with the fewest Dragon Body cards** wins. If there is still a tie, all tied players share the victory.

Special Firecracker Cards

1 · String of Firecrackers

When you play this card, draw 1 Firecracker card from the deck and **add its value** to the total Power.

If the drawn card is a Special Firecracker card, its effect is ignored.

2 · Rocket

When you play this card, place it **last under any Dragon Body card**.

If the Vitality threshold is reached, you take that card.

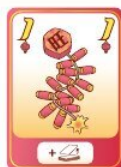

3 · Double Firecracker

When you play this card, if the Vitality threshold is reached:

- Take the Dragon Body card
- Double** its Victory Points

Place this card **face down** in front of you to track the **doubled points** at the end of the round.

Negative points are also doubled.

2-Player Rules

- Place **4 Dragon Body cards** between the Dragon Tail and Dragon Head cards.
- The hand limit is **4 cards**.
- Each player plays **2 Firecracker cards per turn**.
- All other rules remain unchanged.

Special Dragon Body Cards

4 Vitality Card

In Chinese culture, "4" represents bad luck. Taking this card causes you to **lose 3 points**.

13 Vitality Card

Taking this card **increases your hand limit by 1** until the end of the round.
